AMENDMENTS TO THE ABSTRACT:

Please insert the attached abstract after the claims.

ABSTRACT

This invention relates to attachments (1) for attachment of a price tag, swing tag or security label to fabric or other articles. The attachment comprises a length of flexible cord (5) fixed to a plastic cross-bar (15) or T-shaped member at one end and a terminal member (10) at the other end. Also disclosed is a plurality of attachments connected to a spine, each attachment being independently severable from the spine by means of a tagging gun. Also disclosed are methods of making the attachments.
